

Dr. Kleen

MISTING AND SANITISATION

Made in Australia

**kills 99.99.99%
of bacteria**

**inhibits mould
& odour**

**bonds to
most surfaces**

HOSPITAL-GRADE SURFACE SPRAY DISINFECTS AND PROTECTS

Our Surface Disinfectant and Sanitiser Spray is a simple and effective way to kill germs and bacteria and protect surfaces.

Our Surface Disinfectant and Sanitiser Spray will destroy bacteria on the treated surface. Allowing the product to dry will also coat the surface with a microscopic protective layer for continuous protection.

HOSPITAL-GRADE SURFACE SPRAY DISINFECTS AND PROTECTS

KILLS 99.9999% OF GERMS AND BACTERIA

Our all purpose hospital grade disinfectant kills 99.9999% of germs and bacteria and leaves a protective barrier making it the only product you will ever need for all your cleaning, sanitisation and odour control needs!

ACTIVE INGREDIENT

Quaternary Ammonium Compound (QACs) meet the United States Environmental Protection Agency (EPA)'s criteria for use against SARS-COV-2, the virus that causes COVID-19. Our personnel completed the infection control training – COVID-19 administered by the Australian health department.

UNIQUE COMPOSITION

Dr. Kleen is a totally unique antimicrobial product, as it is not a chemical that kills bacteria by poisoning with toxins, but rather a bonded film that resembles millions of sword-shaped road spikes that attract and kill germs and bacteria.

With an inbuilt detergent system that effectively breaks down dirt, grease and grime on most surfaces including glass, mirrors and stainless steel.

Dr. Kleen hospital-grade surface disinfectant meets or exceeds EN1276 hard surface carrier test.

HUMAN AND ECO FRIENDLY

Formulated from organically derived plant and mineral based ingredients, our all purpose stands alone as the safest and greenest cleaning product available on the market.
